## PROFILE

A Bachelor's in Computer Engineering student at the University of Buea in my second year of schooling. I am a holder of Cameroon GCE Advanced Level certificate in 5 subjects (Sciences), a co-author of the book "MIA engineering workbook" which aims at preparing students for professional engineering entrance competitions in Cameroon. I am currently on 1month internship program at TeksTedia Ltd as a front end web developer. Possess skills in programming (in the various languages such as C, JavaScript and Java), can write and speak English very well, and French averagely. Keen to pursue a career in the engineering field as a full stack developer and mobile application programmer.

## EDUCATION
